

GRANTEE	GRANT AMOUNT	COMPANY MATCH	CITY	PROJECT SUMMARY
Advantage Waste Recycling & Disposal	\$40,000	\$30,000	Charlotte	Advantage Waste Recycling & Disposal will purchase and install a commercial truck scale and material handling equipment, such as a skid-steer, to create a new business line in construction and demolition material recycling.
Barnhill Contracting	\$30,000	\$82,690	Tarboro	Barnhill Contracting will purchase a screen deck vertical extension, a vertical curve transfer conveyor extension, leg and bulkhead extensions and a new bin to increase recycling of postconsumer asphalt shingles in asphalt mixes.
Benfield Sanitation Service	\$21,000	\$21,000	Statesville	Benfield Sanitation will purchase a box body delivery truck to distribute carts to customers and to collect special needs material from clients.
Boggs Paving Inc.	\$30,000	\$60,000	Monroe	Boggs Paving will purchase a horizontal grinder to increase the capacity and thereby divert more asphalt shingles to their recycling operation.
Brooks Contractor	\$36,750	\$36,750	Goldston	Brooks Contractors will purchase an air lift separator to remove plastics from their feedstock, increase production and enhance final product.
Carolina Shingle Recycling LLC	\$30,000	\$50,000	Indian Trail	Carolina Shingle Recycling will purchase and erect a metal building to protect raw shingles and finished product from the elements.
Chowan Metal Recycling	\$22,844	\$11,456	Edenton	Chowan Metal Recycling will construct a concrete slab and metal building to sort, clean and store collected precious metals, thus reducing contamination, improving operational efficiency and increasing recycling capacity.
Coleman Contracting	\$40,000	\$40,000	Zebulon	Coleman Construction will purchase 4-yard, 64-gallon containers, and a lifter to aid in the collection of a food waste.
CompostNOW LLC	\$18,680	\$20,465	Raleigh	CompostNOW will purchase a collection vehicle and assorted food waste container washing equipment to enhance their residential food waste collection services.

Curbside Management	\$20,000	\$20,000	Asheville	Curbside Management will purchase a tandem deck step trailer, fork lift and forklift scales to increase their capacity for industrial bulk recycling.
Danny's Dumpsters	\$25,000	\$19,000	Leicester	Danny's Dumpster will purchase an in-vessel composting container, a 20-cubic yard roll-off dumpster, and 64-gallon carts to increase their food waste diversion capacity.
Earth Farms	\$40,000	\$30,000	Stanley	Earth Farms will purchase and install commercial truck scales to increase their efficiency and aid in a better compost recipe blend.
eCycle Secure	\$20,000	\$10,000	Charlotte	eCycle Secure will purchase and put into use collection trailers to help decrease hauling and collection storage costs thereby expanding its customer base.
Elastrix LLC	\$40,000	\$72,800	Pilot Mountain	Elastrix LLC will purchase equipment to process scrap tires and grind them into crumb rubber, diverting tires from the waste stream and providing the raw material sold to rubber companies in North Carolina.
Engineered Recycling Company	\$20,000	\$52,302	Charlotte	Engineered Recycling will purchase and install an aspiration system to recover plastic and paper materials for recycling that are now being sent to the landfill.
Fogleman & Fogleman Soils Inc.	\$20,000	\$60,000	Durham	Fogleman and Fogleman Soils, Inc. will purchase a screener to reprocess construction and demolition materials into marketable soil, boiler fuel and aggregate commodities.
Gallins Family Farm	\$40,000	\$40,000	Winston-Salem	Gallins Farm will purchase 64-gallon carts, a bucket loader, red wiggler worms, and build a shed to increase their capacity to divert food waste.
God Bless the USA	\$40,000	\$40,000	Indian Trail	God Bless the USA will purchase 95-gallon recycling carts to convert their customers from 16-gallon bins to cart recycling.
Goldsboro Plastic Recycling	\$10,000	\$8,000	Clayton	Goldsboro Plastic Recycling will purchase a pelletizer to process reclaimed plastic into pellets to supply domestic and international plastic manufacturers.

Green Coast Recycling	\$20,000	\$10,000	Wrightsville	Green Coast Recycling will purchase a rear loading truck to improve efficiency when collecting ABC glass from bars and restaurants.
Habitat for Humanity - Charlotte ReStore	\$12,500	\$16,915	Charlotte	Habitat for Humanity of Charlotte will purchase and install a styrofoam densifying system to significantly reduce the volume of recycled styrofoam for delivery to market.
Hatteras Recycle LLC	\$40,000	\$143,592	Rodanthe	Hatteras Recycling will purchase additional carts and bins to accommodate customer growth and a rear loading compacting truck to increase collection efficiency.
J. Westmoreland Inc.	\$40,000	\$410,000	Kernersville	J. Westmoreland Inc. will purchase a portable concrete crusher and screener to produce recycled aggregate and screened dirt/fill products.
Mattress-Go-Round LLC	\$20,000	\$10,000	Greensboro	Mattress-Go Round LLC will purchase a truck to increase post-consumer mattress recycling collection and to deliver remanufactured mattresses to customers.
MAYtime Composting Systems	\$14,500	\$7,300	Burnsville	MAYtime Composting Systems will build a shed storage area and office upgrade, and purchase plastic containers and chipper/shredder to increase efficiency.
Metech Recycling	\$15,000	\$19,500	Creedmoor	Metech will perform site-work and install two loading dock doors with levelers to increase material flow of electronics for recycling.
Oroco Enterprises	\$30,000	\$15,000	Durham	Oroco Enterprises will purchase six trailers to increase construction and demolition material recovery at deconstruction projects.
Otto Container Management	\$40,000	\$60,000	Charlotte	Otto Container Management will purchase and install a grinding operation to process recycled HDPE to increase the percentage of post consumer waste in its manufacturing cart process.
Piedmont Disposal Inc.	\$20,000	\$20,000	Winston-Salem	Piedmont Disposal and Recycling will purchase 30-yard roll off containers to place at construction and demolition projects to collect recyclable C&D material.

Ply-Gem Industries	\$40,000	\$15,000,000	Cary	Ply-Gem Industries will locate a new manufacturing facility in N.C. that will recycle co-mingled plastic into exterior building products such as siding, shakes, shutters, fence and rail.
Powerhouse Recycling Inc.	\$20,000	\$20,000	Salisbury	Powerhouse Recycling will purchase a horizontal bailer so that they can market plastics, shrink-wrap, cardboard and other items that are included in a load of recyclable electronics.
Recycling Management Resources	\$30,000	\$15,000	High Point, Raleigh	Recycling Management Resources will make site improvements to both the Raleigh and High Point facilities, including installing concrete pads and an additional loading dock and ramp, to improve operations and increase recycling capacity.
Republic Services	\$40,000	\$6,200,000	Conover	Republic Services will use grant funding as part of a 6.2 million dollar upgrade of its material recovery facility in Conover, NC.
Roll-Tech Molding Products LLC	\$28,900	\$28,900	Hickory	Roll-Tech will purchase and install 23 tire molds to increase its use of post consumer crumb rubber and manufacture two new tire styles.
Sirius Metal Recycling Inc. dba Wilson Recyc	\$10,000	\$5,000	Wilson	Sirius Metal Recycling Inc. (Wilson Recycling Center) will purchase a baler to process a wider variety of materials, increase processing capacity and increase the value of the materials collected.
Stoney Creek Lumber Inc.	\$40,000	\$80,000	Ahoskie	Stoney Creek Lumber Inc. will purchase a horizontal grinder to grind wooden pallets into a mulch product.
Suburban Sanitation	\$15,000	\$15,000	Charlotte	Suburban Sanitation will purchase 96-gallon recycling carts to convert their customers from 18-gallon bins to cart recycling.
Synergy Recycling	\$5,000	\$45,000	Madison	Synergy Recycling will purchase two forklifts to improve operation efficiencies and increase their e-waste recycling capacity.
Todco Inc.	\$40,000	\$35,030	Lexington	Todco Inc. will purchase a skid steer loader with attachments to assist the processing of construction and demolition waste for recycling.

Union County Habitat for Humanity	\$21,500	\$13,500	Monroe	Union County Habitat for Humanity will purchase and put into use a 20 foot box body truck and trailer that will enable them to divert additional C&D materials from vacant and derelict properties in Union and Anson Counties.
Waste Beneficial Reuse Solutions	\$10,000	\$5,000	Burlington	Waste Beneficial Reuse Solutions will purchase roll-off containers and concrete barriers to increase recycling and improve the efficiency of the material processing facility.
Waste to Green LLC	\$10,000	\$7,500	Durham	Waste to Green LLC will purchase a baler and forklift to improve the company's e-waste recycling operations.
Watauga County Habitat for Humanity	\$28,500	\$14,500	Boone	Watauga County Habitat for Humanity will purchase a flat bed dump truck and dump trailer to collect items from home demolition/remodeling and residential/student move-out.
TOTALS	\$1,135,174	\$22,901,200	246
